PROFILE

Junior Full Stack Developer with hands-on experience on own projects published in production. I work with React, Node.js, Express, PostgreSQL, MongoDB and REST APIs, and I configure the Linux servers, nginx, Git and deployments on Oracle Cloud and Vercel behind them. I have built applications with JWT authentication, payments, transactional email, image storage and automated publishing. I also bring 18 years of operations, customer support, administration and logistics experience, with problem-solving, organisation and follow-through.

LANGUAGES

Portuguese Native
Technical English B2 — reading, writing and technical comprehension; sustained spoken conversation in progress

TECHNICAL SKILLS

Languages JavaScript (ES6+), TypeScript, HTML5, CSS3, Bash
Front end React, React Native, Expo, Vite, Material UI, Emotion, React Hook Form
Back end Node.js, Express, APIs REST, autenticación JWT, Prisma, Sequelize, Mongoose
Databases PostgreSQL, MongoDB, SQL, relational modelling, versioned migrations
Infrastructure Ubuntu Server, Oracle Cloud, Vercel, nginx, systemd, Git y GitHub, automated deployments, certificados TLS
Tools Linux, Python, Stripe, Mercado Pago, Cloudinary, Nodemailer, Excel avanzado, metodologias ágiles

PROJECTS

Operations Dashboard — production panel 2026

HTML, CSS, JavaScript, Python, Bash, nginx, Ubuntu Server (Oracle Cloud), Git · Demo

- Portal published on a custom domain, with basic auth, TLS and an Ubuntu server on Oracle Cloud.
- Bash script that versions the static resources, runs a smoke test and sends the deployment to the repository in one command.
- JSON file processing through Python routines to publish recurring content in the panel automatically.

Tourism Platform — REST API 2026

Node.js, Express, Prisma, PostgreSQL, MongoDB, JWT, Mercado Pago, Nodemailer

- REST API organised by domain, with JWT authentication and four versioned Prisma migrations over PostgreSQL.
- Geospatial persistence with MongoDB/Mongoose, payment and QR code through Mercado Pago, and transactional email with Nodemailer.

DevBurguer — ordering application 2026
React, Vite, Material UI, Emotion, React Hook Form, yup, Stripe, Express, Sequelize, PostgreSQL, MongoDB, Cloudinary · GitHub

- React interface with schema validation and Stripe checkout; Express API with Sequelize over PostgreSQL and Mongoose over MongoDB.
- Image upload to Cloudinary with Multer, and authentication with JWT and password hashing.

DevClima — weather application 2026
React Native, Expo, React Navigation, Axios, TypeScript · GitHub

- Weather app by geolocation, with tab navigation and an external API.
- Personal site jonasfilho.dev.br in production, published on Vercel from GitHub with React 18 and Vite.

EXPERIENCE

Full Stack Developer — self-employed 12/2025 – actualidad
JF Dev

- Development of own projects, from requirement analysis through production deployment.
- Versioning in Git with history organised per project, and automated publishing from the repository.

Systems Support Technician 03/2020 – 05/2024
Supermercado Teixeira Coelho

- resolución de incidencias de primer nivel en sistemas de gestión utilizados en caja y operaciones internas.
- Organisation and updating of the product database, and optimisation of operational flows to cut service times.

Inventory Checker and Flow Lead 03/2009 – 05/2018
Companhia Brasileira de Distribuição (CBD)

- Stock checking and control on receiving and dispatch, applying the FIFO method.
- Led operational teams in warehouse organisation.

Office Assistant 02/2005 – 12/2008
New Chroma Comercial

- Document organisation and support to the purchasing department.

EDUCATION

- **Computer Science** — UNOPAR (distance learning) · In progress, started 07/2023
- **Full Stack Programmer** — DevClub · In progress
- **Technical Certificate in Logistics** — ETEC Paulo Eiró, 2011 – 2012
- **Secondary Education** — E.E. Ministro Costa Manso, 2003

CERTIFICATIONS

- **Google Cloud Computing Foundations** — BigQuery, cloud computing and AI / machine learning fundamentals
- **Google Arcade Facilitator** — participant training on Google Cloud tools
- **Excel from basic to advanced** and Administrative Assistant — BraSTEC, 2025
